*the 1960 Syllabus*  
*of Sheridan High School*

*From the pages of this book will come the sounds of Sheridan.*

*Beat those Shamrocks!*

*Isn't that too many on the merry-go-round?*

*These are the bus drivers, the familiar faces we see around school at 3:45 P.M.*

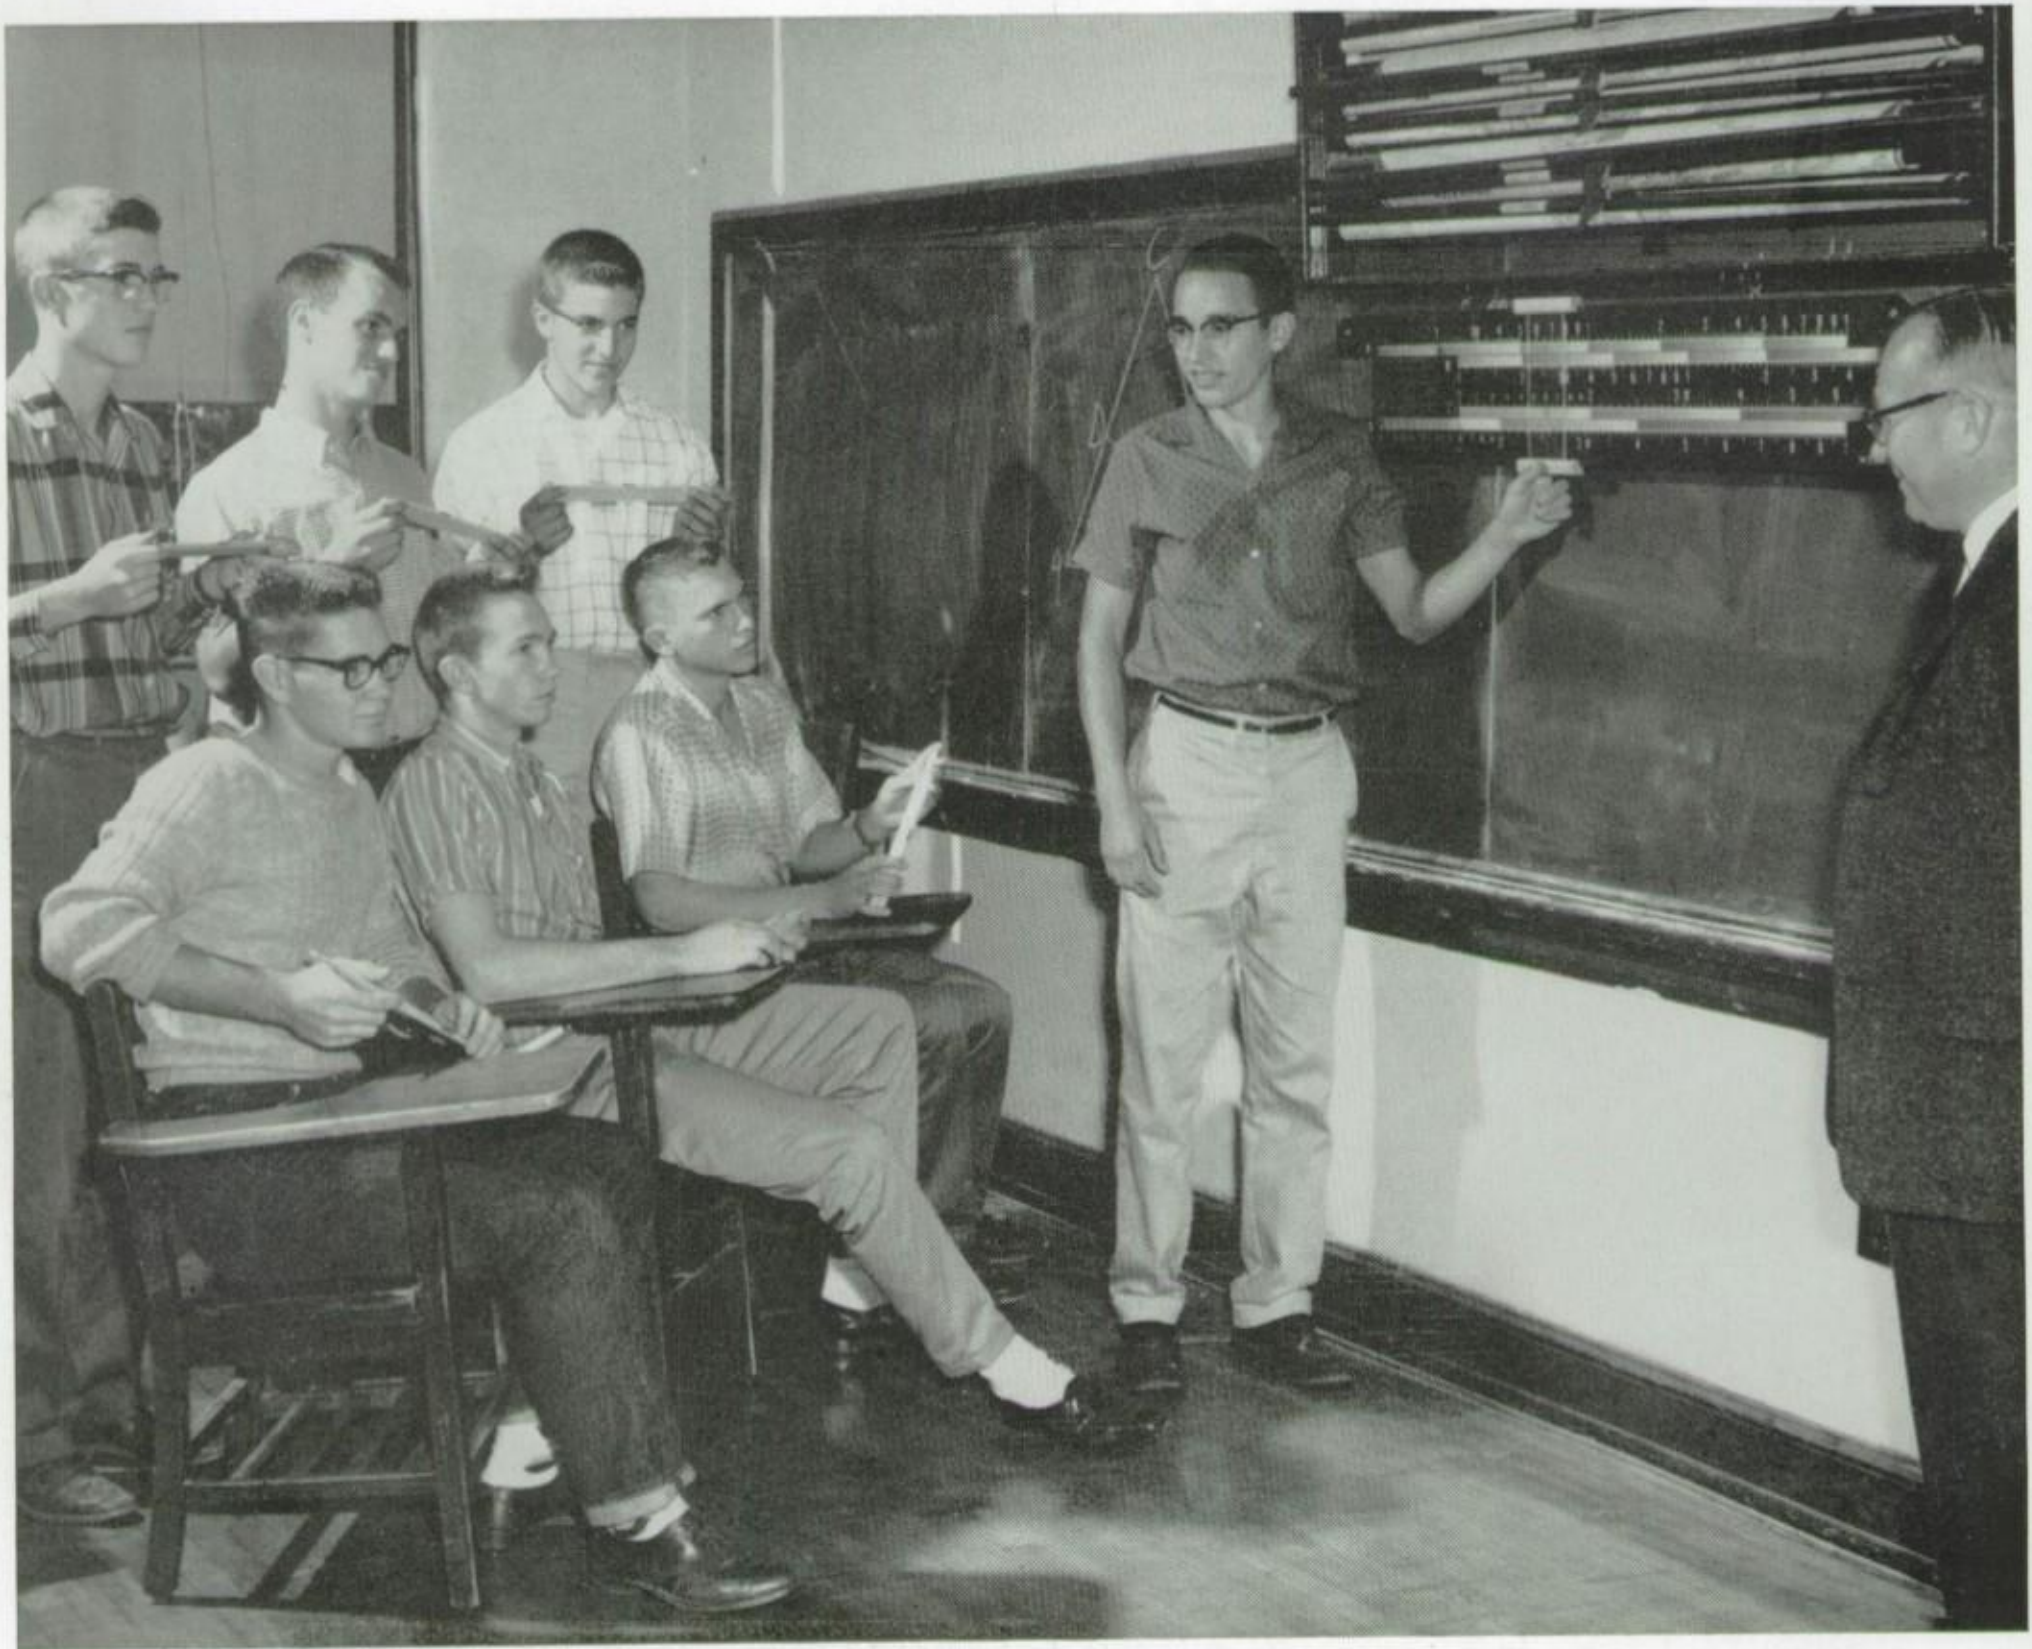

*Isn't that car beautiful?*

## We have many sounds - cheers - songs - yells.

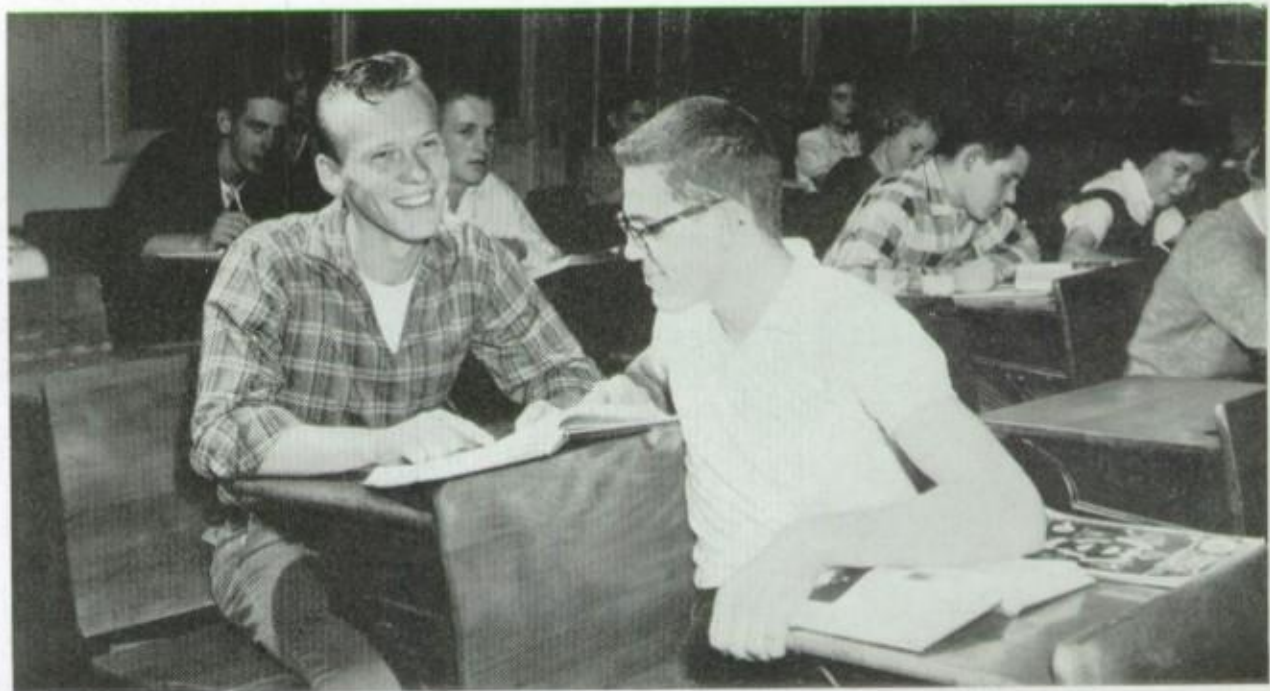

These pictures illustrate some of the sounds which may be heard around school: the cheers at a pep session, the songs of grade youngsters, the games and fun at recess, and the sound of cars and buses.

*Mrs. Clark, the grade music teacher, teaches the children new songs.*

*Think hard boys! All you need is the formula!*

*Hey Boys! This isn't joke time.*

# Sounds of work . . . experiment . . . study . . . and classes.

The most important sound anywhere is work! In school you work hard for a good grade on special reports, charts and maps and other assignments. You experiment to learn something new and for adventure. You study to learn and advance your thinking and you go to classes to have guidance in your learning.

*Don't miss a note Ralph! Mrs. Zimmerman is watching.*

## Sewing a seam . . . Playing a Tune . . . Keeping Order

There are many opportunities in our school. We can learn to sew in home economics or play a song in music class. The girls and boys in our school have many subjects which they can select. In any class or any place there has to be order. Mr. Hobbs, our principal, does a good job in keeping order in our school.

*Many questions are answered by Mr. Hobbs in the study hall.*

## *Sounds of the People*

From the lips of the people, Mr. Hobbs, the teachers, and the students, come the sounds of Sheridan High School. Mr. Hobbs, making the announcements in the morning assembly, has the voice of authority. The teachers, teaching the students in classrooms, exemplify the sounds of knowledge and experience. Since Sheridan High School is composed of many students, they may be found making sounds in many ways.

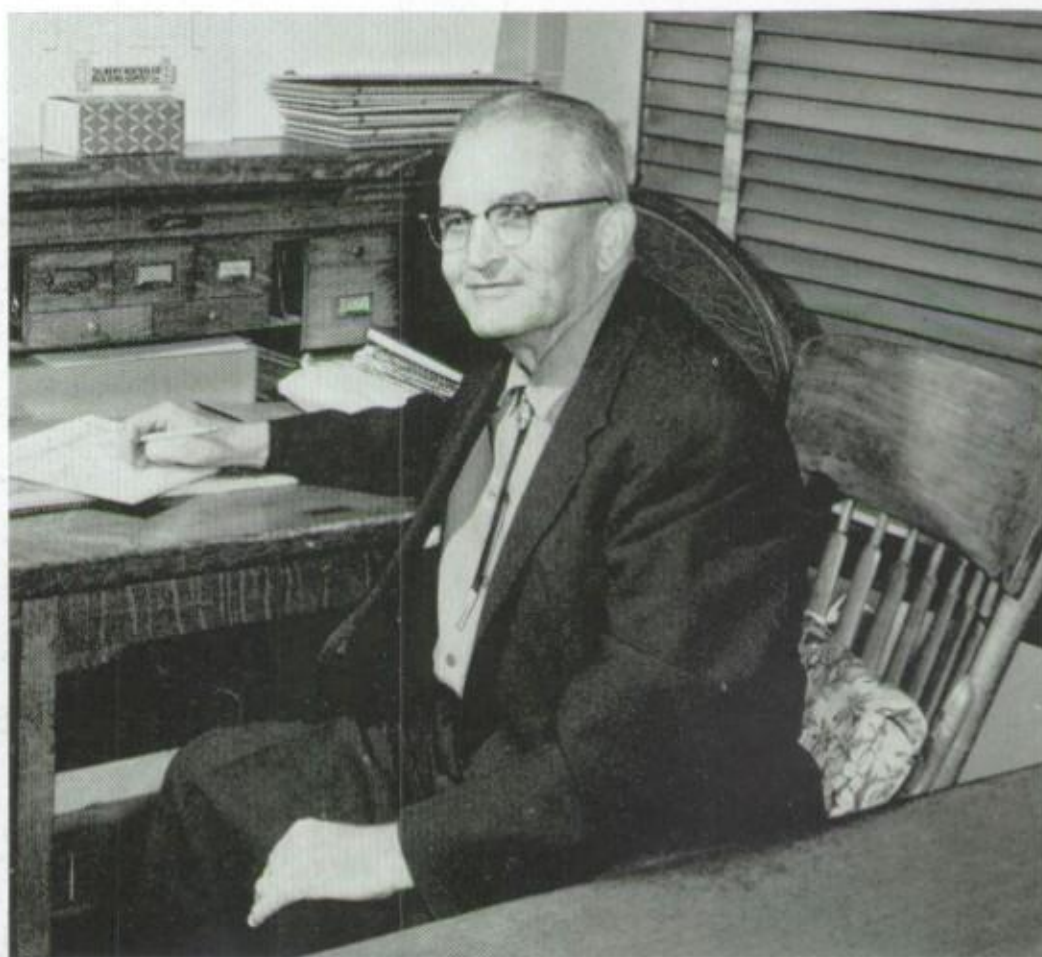

*Mr. Hobbs explaining to Larry Hume about his permanent record.*

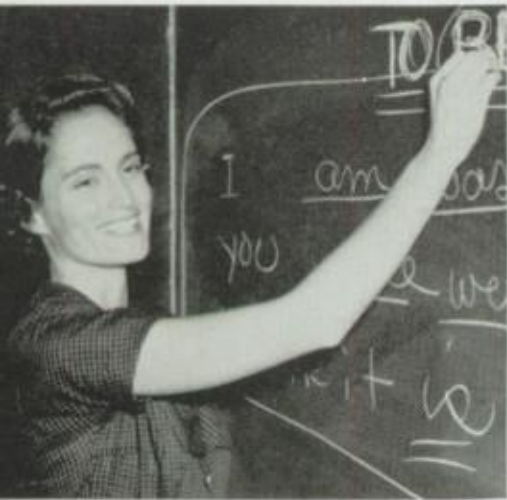

Time has come when we must leave our high school days and open a new world of our own. We hope we can achieve the high ideals and goals Mr. Hobbs has helped us to set for ourselves.

## Our Principal and Trustee

We are very grateful to our trustee, Mr. Raquet for the help he is giving to improve our school. It has had a new coat of paint to make it cleaner and brighter, and he has added new supplies. We are sure he will do his best for Sheridan High School.

*Mr. Raquet is the manager of the Talbert-Roessler Lumber Company.*

## LAMPADARII

The Junior Classical League is a National Organization composed of local Latin clubs in high schools throughout the United States. J. C.L.'s purpose is to encourage an interest in and an appreciation of the civilization, language,

literature, and art of ancient Greece and Rome, and to give an understanding of the debt of our culture to that of classical antiquity.

Sheridan's chapter is called "Lampadarii" and its motto is "Lux nostra fulgeat." The club has regular meetings, planned programs, excursions, an annual Roman Banquet, and sends delegates to the state convention.

## FOOTBALL TEAM

On the 1959 squad there were seven starting seniors. The squad was inexperienced in some respects, but they made up for it in their fighting spirit. There wasn't a game in which the team didn't show determination. The records show what a team accomplishes in wins, but not what they gain in sportsmanship.

The starting backfield consisted of Dan McVey-quarterback, Gerry Pumphrey-right halfback, John Greeman-fullback, Norman Palmer-left halfback.

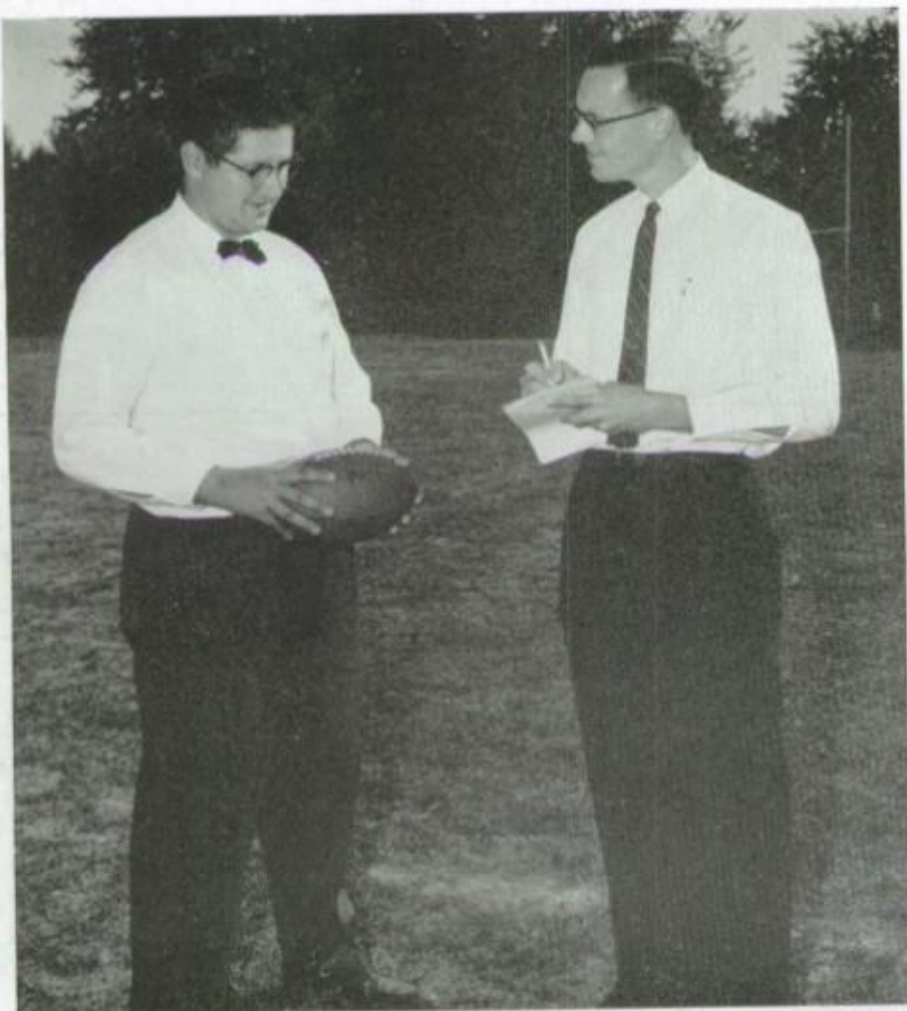

The starting offensive line was Tom Bilby-right end, Larry Inskeep-right tackle, Neil Stahl-right guard, David Inskeep-center, John Pickett-left guard, Paul Rawlins-left tackle, Don Cooper-left end.

The defensive players are Joe Grinstead-right end, Richard Watts-line backer, Kenny Baker-line backer, Larry Miller-tackle, Delbert Wright-guard, Rodney Eisenhower-line backer, Larry Hedge-end.

## FOOTBALL COACHES

Mr. Inskeep with the assistance of Mr. Van Arsdel was the coach for the Blackhawks this season. By spending many hours with the boys, they have shown the players that it takes hard work and determination to get a job well done.

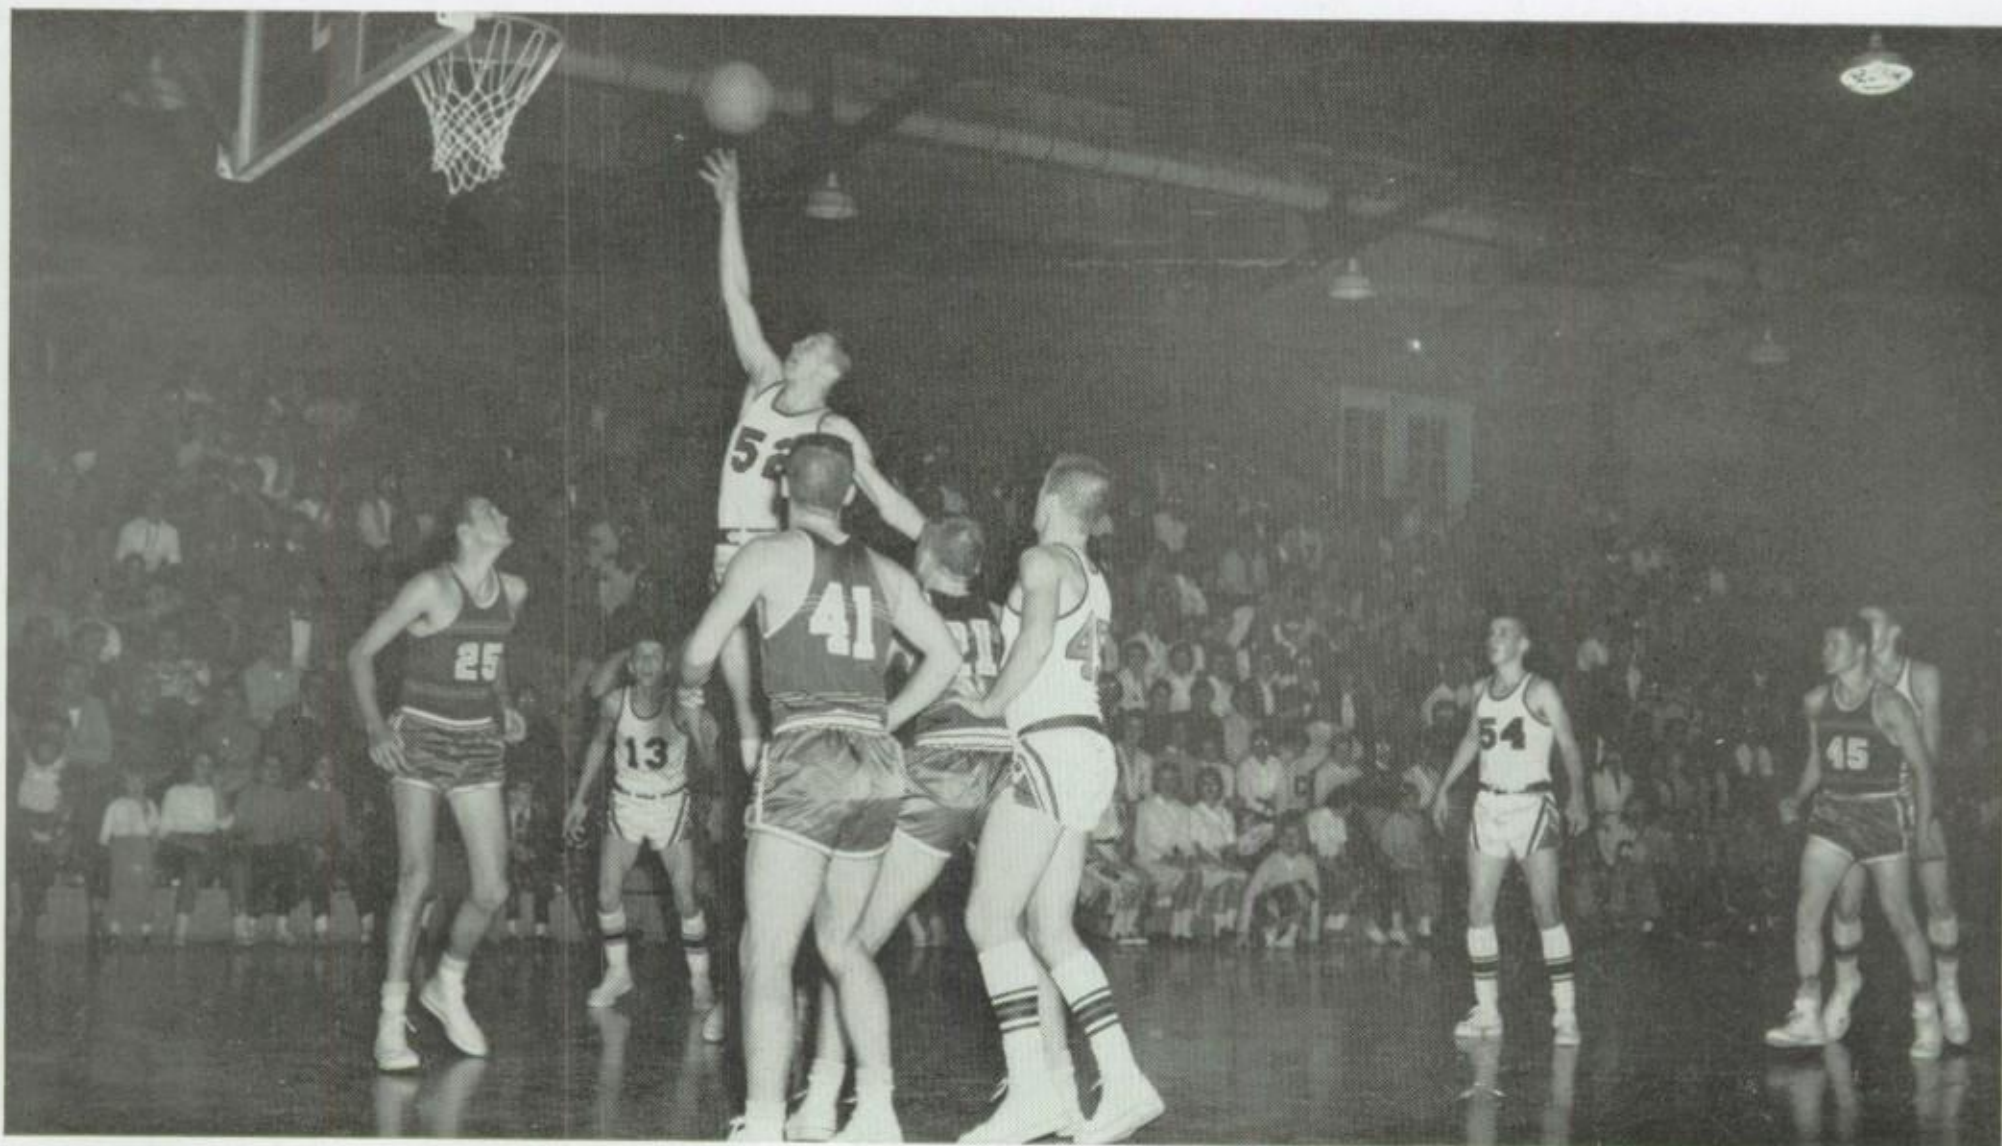

# BASKETBALL COACHES

Mr. Joe Hobbs with the help of Mr. Van Arsdel has worked hard during the 1959-1960 basketball season. Although this is the first year for both, they have shown excellent knowledge in coaching and guiding the basketball boys. Also, the fine sportsmanship which the boys display can be attributed to the coaches' efforts.

# The Prophecy

All aboard the SHS spaceship for a blast-off to the Class of '60 reunion on the moon. As I stepped on the ship, I was greeted by the stewardess, Carolyn George. Hearing the count-down, I recognized the voice to be that of Joan Robbins.

Our first stop was on the planet, Mars. There we picked up John Pickett who is now the head chicken-plucker for the PPP Corporation, Pickett, Parks and Pierce. I then took a space car to the Mars Candy Bar Factory where I saw Ann Groves, chief cook of the factory, bossing Rita Staton, Imadell Beck and Becky Williams, the samplers.

After getting these alumni, we started to blast-off to our next stop, Venus. On Venus a favorite sport is star gazing. Bob Johns, astronomer, was working on his latest experiment, how to catch a falling star. Venus being one of the most romantic planets, I also found John Holmes and Mary Ann Bailey trying to convince the scientist, Karl Fergerson, that love is what makes the world go round.

Returning to the spaceship, we were off for Mercury! After relaxing, breakfast was served, and in came Gene Leonard, chef of the spaceship, passing out his freshly prepared pills. The pilot, Dan McVey, then came back to consult his radio man, Gerry Pumphrey, who is the favorite emcee for the people on the moon. As I looked out my window I could see the Milky Way, there we stopped and got Ronnie Glover, Niles Millikan, and David Ogle who were assistants to Barbara Pritsch, chef of the Milky Way Candy Bar Factory. Everyone was now warned to watch for falling stars which were coming from the shooting star contest, sponsored by Pam Pickett and Eudene Thompson. As I came nearer, I saw Neil Stahl shooting stars, while his helper, Jane Mendenhall loaded his super powered atomic gun. Next to Neil was Jim Boyer and Lanita West, his helper. Going on down the line, I also found Rick Watts and Jane Childers, who were among the other contestants. The winner is to receive an 80 day trip around the universe. Pam and Eudene had hired Jenny Ottinger to design clothes for the winners to wear during their 80 day tour, and her helpers were Bonnie Warren and Christine Voce. While returning to the spaceship with these people, we ran into Jean Hadley who was trying to find the mercury. He was being followed by a psychiatrist, Beth Law.

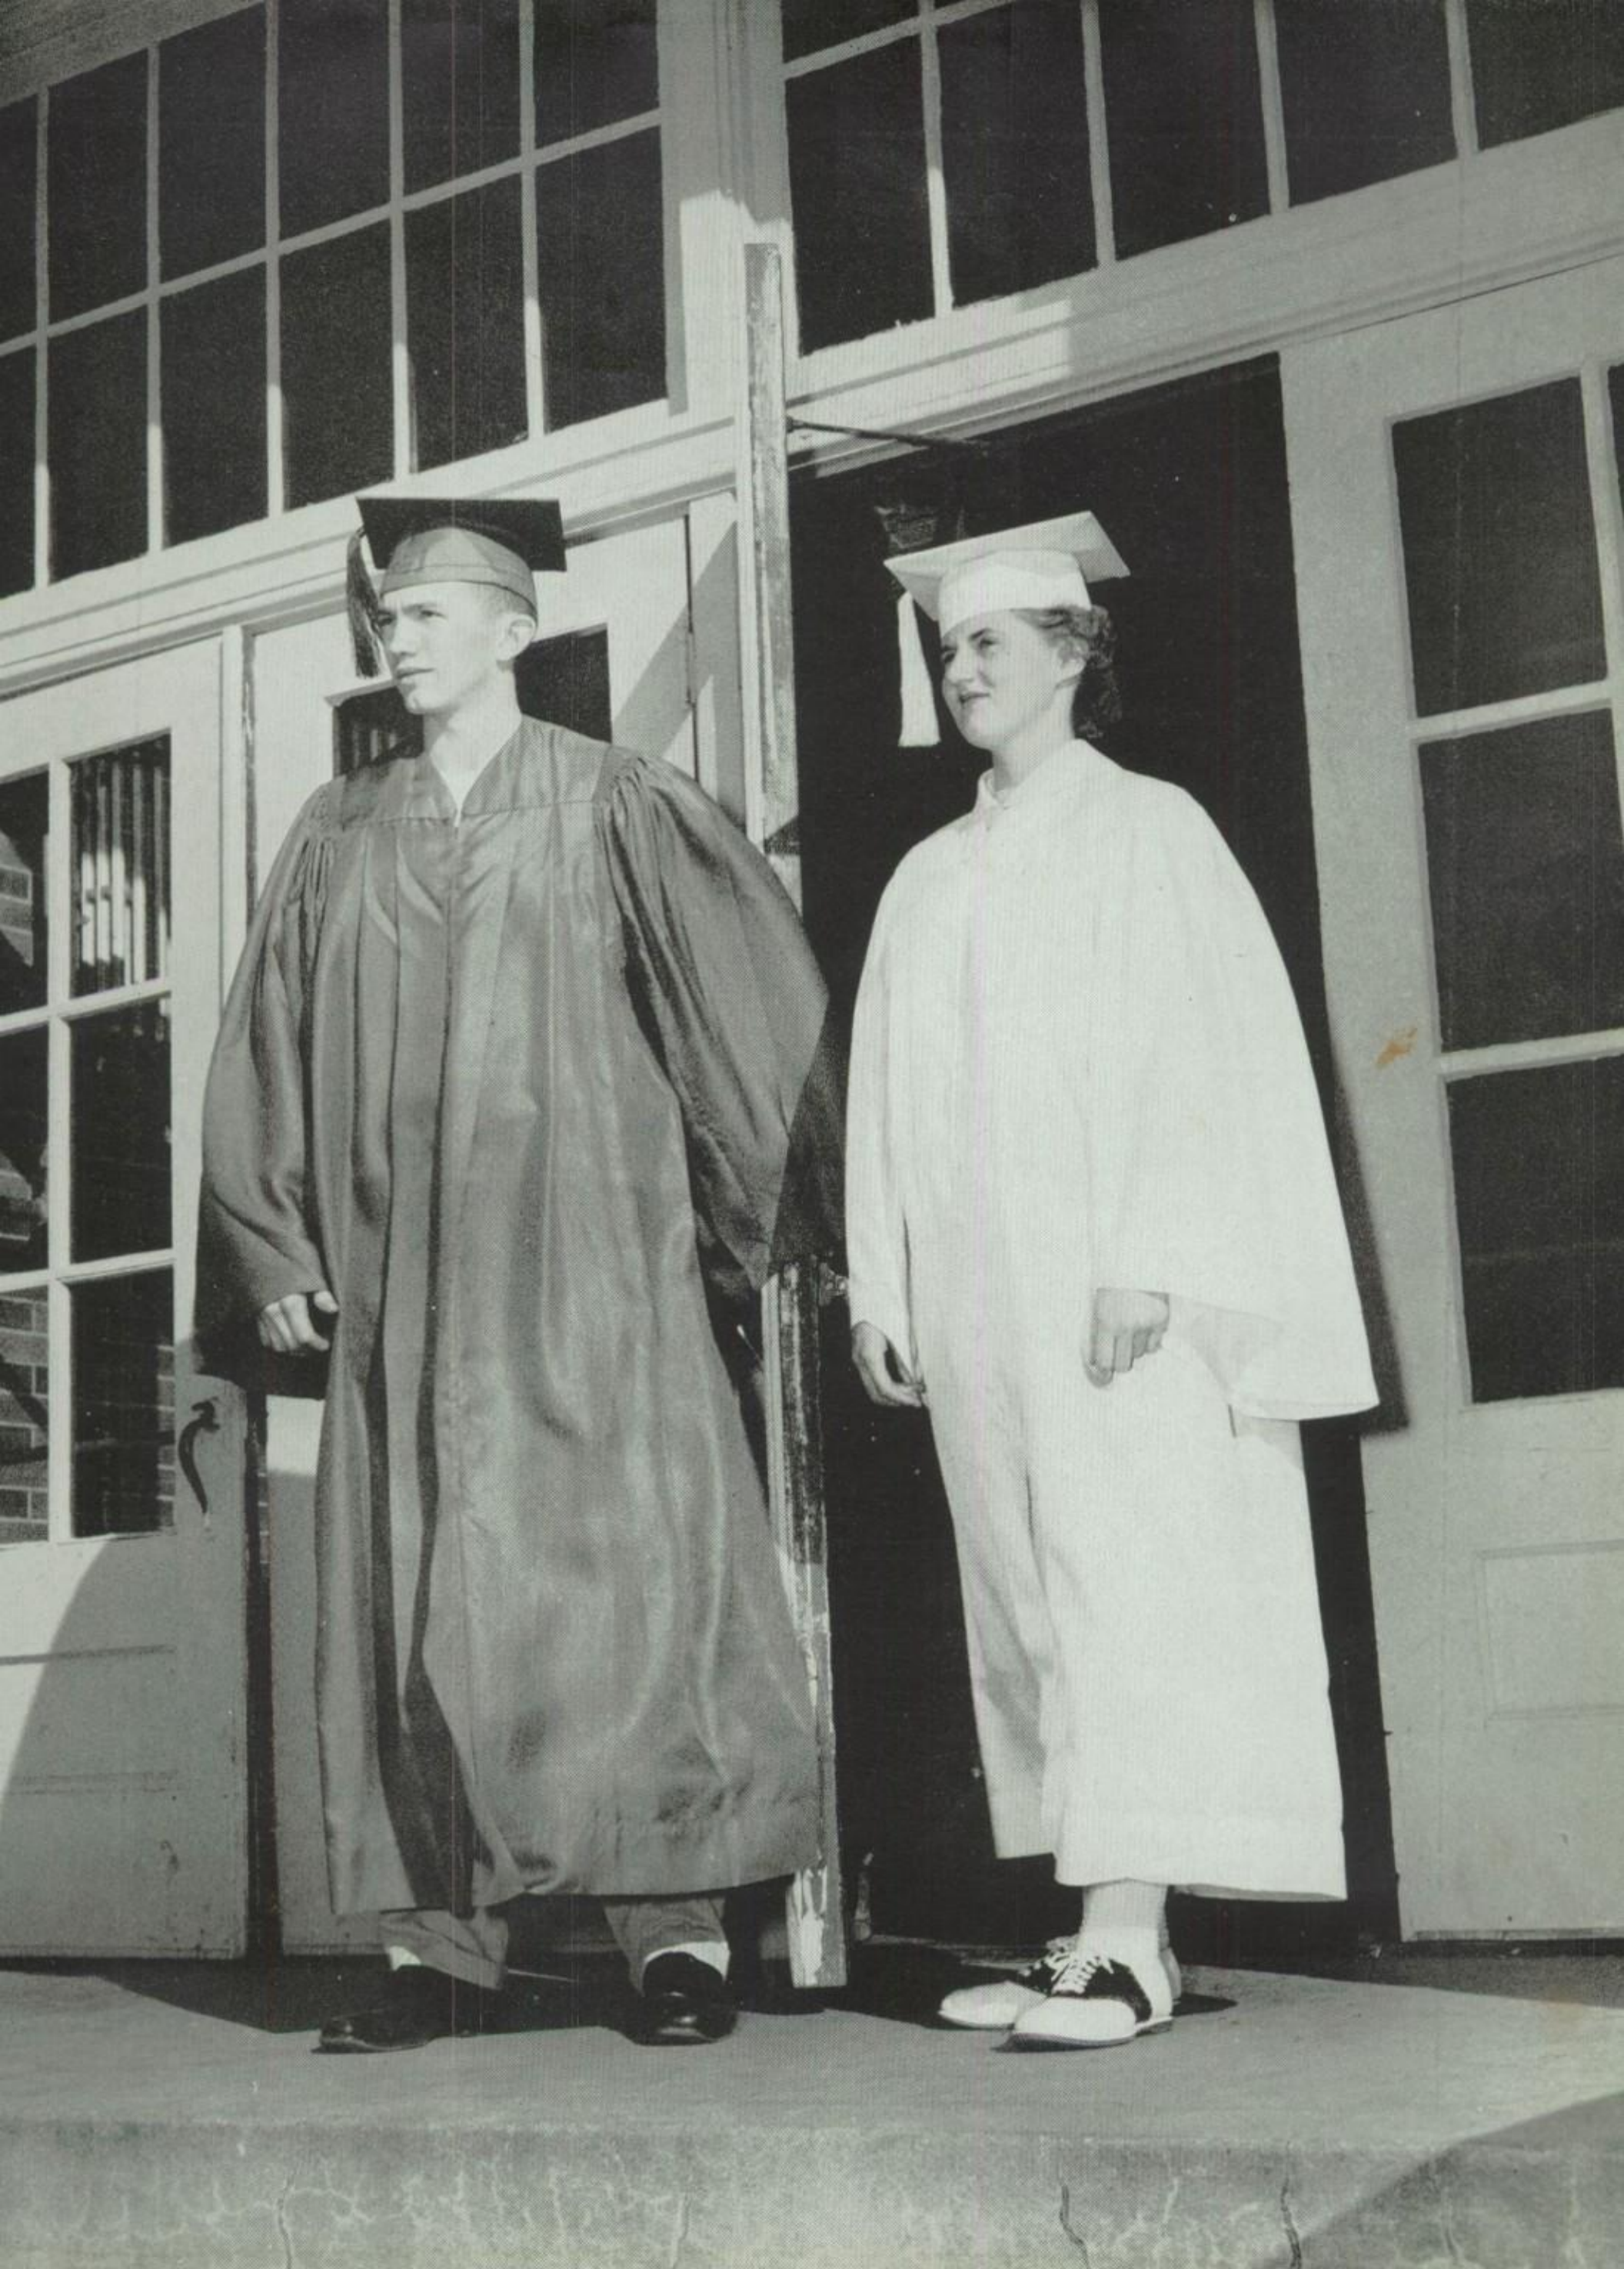

Now back at the spaceship, we were ready to blast-off for Jupiter! Before we got to Jupiter, I noticed flying objects hurling past

the window. I looked out just in time to see Regina Booker, Linda Fairchild, and Nancy Waters taking their private sputniks to the moon. After landing, I went to the Hopkins & Barrick Ice Company to pick up Joy and Nick who were busy packing ice for the Holiday on Ice Show Starring Darlene Griffith and Roger Ehman. I also picked up Joe Grinstead and David Inskeep at the Coon Skin Clothing Store. Going on a little farther, I saw Jerry Menke and Tom Bilby testing Cigarettes for Cooper and his "Kools". Since Jupiter is one of the coldest planets, Patsy Shupe, Jan Stanley, and Linda Fox were making millions of dollars by bringing bottled sunshine to the natives of Jupiter.

After the spaceship refueled at Jerry Hunt's Rocket Fuel Station, we were all set to go to Saturn. As we were traveling through space, and half way to Saturn, I saw Mike Rudd floating through the air with his parachute, and he seemed to be lost! On Saturn we hurried to pick up Connie Martin who was measuring the rings around the planet. She had just returned for supplies. Going into a shopping center, we saw the manager of the Capsule Food Center, Delbert Wright. I also learned that Kirk Hoggatt and Larry Brown owned similar stores in different parts of Saturn. Down a couple blocks from the market was Larry Hume, Mark Thompson, and Larry Hedge who were demonstrating push-buttons and trying to sell them. I finally caught up with Jim Godby, the guy running the famous marriage matcher, UNIVAC. He and Don Leonard, his mechanic, had just finished repairing UNIVAC after a failing attempt to match Becky Clark and Jim Land.

Now, it was time to go to Uranus and get Danny Weir, Dwain Biddle, and Kathy Wright. Danny is running an antique shop, with displays of jets, beside Danny was Dwain who had a side display of the old manual typewriters and Kathy with her demonstration of baton twirling.

We were off again this time to Neptune. Since Neptune was having their annual circus, it was easy to find Charles Walker, a lion trainer, and David Ogle with his trained crows. Then I picked up David Lutz who is one of the speed drivers. He and Bill Hudson race missiles. Then Nancy Sears and Dian Hillock, the acrobats, came walking by with Norman Palmer their trainer. Finally we found Nancy Cole running her own little side show with Carolyn Forbush the fire-eater. At last we were all on board to go to the reunion on the moon.
